

# Bumblebee Class

## 1st Half of Summer Term

### OUR TOPIC

This half term our key question is: How does your garden grow?

We will investigate parts of a flower, how flowers grow, how minibeasts play a role in our garden growing and much more.

We are very excited to grow our own fruit and vegetables in our garden.

### MATHS

We will continue to develop our mastery in number and shape by looking at:

- Pattern of number
- Addition and subtraction
- Grouping and sharing
- Ordinal Numbers
- Counting forward and backwards

### PE DAYS

Our PE days will now be Monday and Wednesday.

On Mondays we will have a coach in from Luctonians to practise ball skills, target games and team games. On Wednesdays we will have athletics.

### REMINDER

Please ensure children have hats and suncream with them during the summer term.

### READING

Each time a child reads at home, they will receive a sticker on their bookmark. Once they have collected 10 stickers, they will receive a prize from the prize box. Keep up the fantastic reading at home! Let's see if they can get 10 stickers over the Easter break!

### PHOTOS

Please can you upload a photo of your child's special place onto Seesaw by the beginning of the first week back. We will use these for RE.

### KEY DATES

17th April - Start of Term  
1st May - Bank Holiday  
8th May - Bank Holiday  
26th May - End of Half Term
