

Orcas— Spring 1

Seesaw

Thank you for your engagement on Seesaw. The children are always really excited to share their work to you at home.

Just a reminder, that if you would like to send us a message about something that you send to both Mrs Milward and Miss Lewis please so we can pick it up on whichever days we are in school.

English

This half term we are going to be looking at the book 'A Series of Unfortunate Events', written by Lemony Snicket. We are looking forward to writing our own mystery stories, narratives and diary entries, whilst focusing on setting and character descriptions.

Maths

This half term, the children will be finishing and consolidating our work on fractions, looking at comparing and ordering them, simplifying them and mixed numbers into improper fractions.

We will then move on to decimals and perimeter a little bit later in the term.

Just a reminder of our **homework** days.

Monday to Monday—Tables Genius

Friday to Friday—Maths or Reading Comprehension on alternate weeks.

Spelling—set on a Thursday and runs for two weeks.

Reading—as much as you can fit in.

PE days

Tuesday and Wednesday

Science

Our key question is, 'What makes a lightbulb shine brightly?' To answer this question, we are looking at how electricity has affected our lives, both in a positive and potentially negative way. In addition to this, exploring circuit symbols and the effects of voltage.

Topic

Our topic this term is heavily Geography based, with our broad key question being 'How is Herefordshire different to Central Mexico?'. We are going to be looking at the different locations, types of weather and climate, culture and tourist destinations.
