

BETTER, BUGS AND BUTTERFLIES

This term we will be learning about life cycles of beetles, bugs and butterflies, habitats and more. Our learning will be taking us outdoors to explore the different season and weather. We will also be looking

Maths

We will be working on:

- Subitising to 3 or 5
- Recognising numerals
- Using positional language

at:

Literacy

We will be focusing on:

- Listening to stories
- Writing and recognising our names
- Recognising initial sounds

Communication and Language

The children will be encouraged to join in Huddle time as we talk about their own experiences. Children will have opportunities to enhance listening skills as they listen to stories. We are developing our skill of listening to more than one thing at a time and understanding and asking 'why' questions.

Physical Development.

Activities that will support this are:

- Walks to the school field and village
- Exercise on the playground and bikes
- Yoga
- Exploring

Personal, Social and Emotional development.

Activities that will support this are:

- Playing games with friends
- Listening to morning huddle time and routines
- Discussing their day with family and siblings
- Listening games

Expressive Arts and Design

We have a craft area indoors and outdoors for children to access and create artwork which has meaning to them. They can access many resources to make their creations.

Understanding the world

We will be working outdoors to grow fruit, vegetables and flowers, explore bug houses and beetles habitats. Through our walks to the field and village we will think about what we can hear, explore the different materials and consider the lifecycle and habitats of mini-beasts.

We will be spending much of our time outdoors this term, exploring and hunting for bugs and beetles. Please could children have a spare pair of clothes, either kept in their bag or on their pegs, this way if we get muddy or wet, we can change into clean.
